SUMMARY

I'm .NET Software Engineer with over 2.5+ years of experience in developing .NET applications.
I am seeking opportunities to join a challenging environment that offers exciting projects utilizing .NET technology. My goal is to continuously enhance my skills and contribute to the development of breakthrough and efficient applications.
I also spend time learning new technologies and best practices to become a better engineer.

TECHNICAL SKILLS

Programming Languagues:
- C#, JavaScript.

Frameworks/Platforms
- ASP .NET Core, ASP .NET Framework.
- Restful API, .NET MVC.
- Entity Framework, Dapper.
- Linq, Store Procedure.
- Unit Testing.
- JQuery, Bootstrap, HTML, CSS, SCSS.

Database Management Systems:
- MS SQL Server, PostgreSQL, MySQL, NoSQL(MongoDb, Redis)

Others:
- Understanding of OOP methodologies, SOLID principles and design patterns
- Experience with Docker containerize
- Experience with Microservices architecture
- Experience with version control systems (e.g., Git) and Agile/Scrum development methodologies.

PROFESSIONAL EXPERIENCE

ISD Corp - Backend Engineer   Jul 2022 – present
- **Project:** ITP MES (8 members: 4 back-end, 2 front-end, 2 mobile dev)   Ho Chi Minh City
  - **Description**: A web application and mobile application are used production operation software for factory and integrate with Oracle Netsuite system
  - **Technologies**:
    - Back-end: .NET Core 6.0, Restful API, Entity Framework, Dapper, MS SQL Server

- Front-end project: React, Mobx, TypeScript, Ant Design
- Mobile: React Native
- **Responsibilities:**
  - Define the architecture (incorporating both the CQRS and MediatR patterns), coding convention
  - Mentoring intern/fresher of the team to ensure quality. Refactor, write unit test and documentation to help developers faster and easier.
  - Design database schema and implement back-end services for the ITP App
  - Develop API to connect with front-end, mobile dev or partner
  - Deploy web application in Windows Server with IIS
- **Project:** An Cuong CRM(7 members: 3 back-end, 3 front-end, 1 mobile dev)
  - **Descirption:** is an application or system designed to manage and optimize your relationship with customers and your interactions with them
  - **Technologies:**
    - Legacy project: .NET Framework MVC, JQuery, Bootstrap
    - Migrate to new back-end project: .NET Core 6.0, Restful API, Entity Framework, Dapper, MS SQL Server
    - Migrate to new front-end project: React, Mobx, TypeScript, Ant Design
    - Mobile: React Native
  - **Responsibilities**:
    - Evaluating back-end technologies, making design decisions, and leading the effort to migrate legacy back-end projects into newer and more popular technologies.
    - Define the architecture (incorporating both the CQRS and MediatR patterns), coding convention.
    - Develop API to connect with front-end, mobile dev or partner
    - Deploy web application in Windows Server with IIS

3S Intersoft SJC - Backend Engineer

Mar 2021 – Jun 2022
Hue City

- **Project:** EVN EX1 (25 members: 12 back-end, 9 front-end, 4 mobile dev)
  - **Description**: Develop a electrical service management software for EVN Hanoi.
  - **Technologies:**
    - Back-end: .NET Core 5.0, Entity Framework, Orcale SQL
    - Front-end: React, TypeScript, Redux, Ant Design
    - Mobile: Flutter
  - **Responsibilities:**
    - Develop back-end processing content according to project requirements
    - Develop API to connect with front-end, mobile dev or partner
    - Write unit test and clean code.
- **Project:** MMI MCS (3 members)
  - **Description:** Develop a part of Sales management system for healthy foods for MMI Japan
  - **Technologies:** .NET Framework MVC, ADO .NET, PostgreSQL
  - **Responsibilities:**
    - Develop new function according to project requirements
- **Project:** EVN KPI (10 members)

- **Description:** Develop a software to synthesize the set of targets to implement the plan for EVN Hanoi.
- **Technologies**: .NET Core 5.0, React, Flutter
- **Responsibilities:**
  - Develop API to connect with front-end, mobile dev or partner
  - Write unit test and clean code.

Aureole Information Technology - Fresher Developer   Aug 2020 – Jan 2021
                                                                                    Hue City

PASTIMES AND ACTIVITIES

- I am keen on reading books, IT blogs in my free time. My favorite sport is fooball.
- In my free time, I also spend time learning new technologies and best practices, learn English

EDUCATION

Hue Science University   Aug 2017 – Aug 2020
                                                                          Hue City, Viet Nam
